

AUGUST 2025

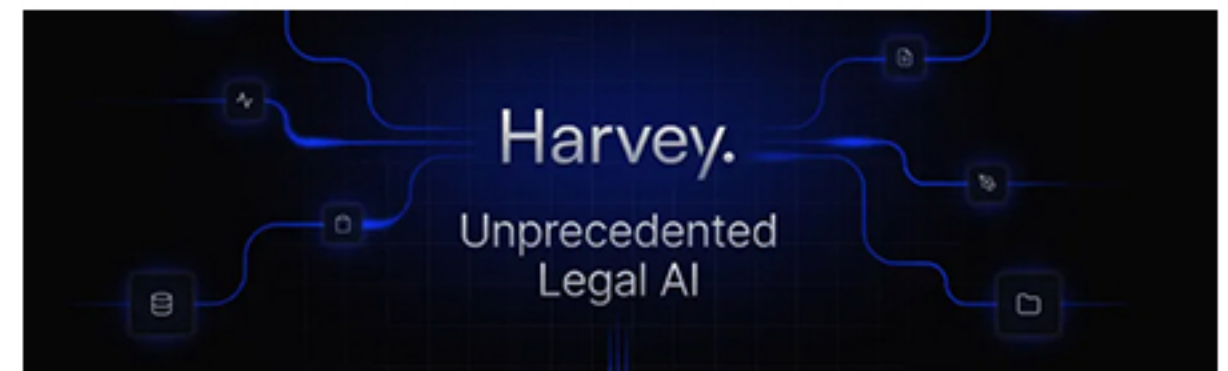

Olaniwun Ajayi Becomes West Africa's First Law Firm to Adopt Harvey AI.

Consistent with our tradition of firsts and market leadership, Olaniwun Ajayi is proud to announce that it has become the first law firm in Nigeria, and indeed in West Africa, to roll out Harvey AI, a cutting-edge artificial intelligence solution designed specifically for the legal industry.

Harvey AI is the most advanced legal AI platform currently in use by leading global firms. Unlike public AI tools, Harvey has been trained exclusively on legal data and built with the highest safeguards for privacy, security, and client confidentiality. It also integrates seamlessly with industry-standard systems such as Thomson Reuters, Westlaw, and LexisNexis, equipping our lawyers with unmatched speed, accuracy, and efficiency.

By streamlining workflows, enhancing collaboration, and accelerating the depth and pace of analysis, Harvey enables us to deliver faster and more tailored solutions to our clients. This development further strengthens our ability to serve clients while maintaining the hallmark quality, precision, and confidentiality that define Olaniwun Ajayi.

Joining an exclusive group of global law firms that already use Harvey AI, Olaniwun Ajayi is reaffirming its commitment to innovation and forward-looking technology adoption. Over the years, we have consistently embraced sophisticated tools such as iManage, and the integration of Harvey represents another bold leap

Significantly, Harvey enhances the experience of our people. By equipping them with world-class technology, we ensure that Olaniwun Ajayi remains not only a leader in client service but also a dynamic and attractive place to work. Combining the power of advanced technology with outstanding human expertise, we are positioning the firm to deliver results with greater speed, depth, and efficiency than ever before.

With Harvey AI, Olaniwun Ajayi stands apart—delivering excellence, safeguarding client trust, shaping the future of legal services in Africa, and creating an environment that attracts top talent eager to work with the most advanced tools in the profession.

We are confident that generative AI will transform the practice of law. By leading this change, Olaniwun Ajayi continues to differentiate itself in the market while providing its clients with the highest standards of service.

We are thrilled about the opportunities this partnership with Harvey AI will bring, and we look forward to leveraging this technology to continue delivering exceptional solutions to our clients.
